## ICU COMPATIBILITY

✓ = Recommended    ✓ = Compatible    ✗ = Not Compatible

## OVERVIEW

The new Ajna, part of f-stop's reinvented Mountain Series, is the everyday mountain pack. With 40L of volume, the low-profile Ajna is the spiritual successor to the Loka, a proven favorite of customers and our Staff Pro team. Ajna's lightweight harness system provides comfort without adding unnecessary weight. It also features carefully angled MOLLE attachment points on the waist belt for secure accessory attachment. As the most versatile of the Mountain Series, the Ajna is fully compatible with our Pro, Shallow and Micro ICU's. The Ajna utilizes a new standard Oxford-weave ripstop nylon and Advanta™, giving it exceptional water and abrasion resistance.
