Additional storage organization includes top lid zipper pocket and external WET zipper compartment.

## OVERVIEW

With origins as a first of its kind, ultralight, backcountry-bred adventure camera pack designed specifically for a woman's frame, the Kashmir 2 evolves to both Female and Male Torso configuration with a 14-point anatomical fit. With internal aluminum frame and adjustable suspension system, carry capacity is balanced with comfort. Designed with f-stop exclusive DuraDiamond® material, the Kashmir 2 includes premium components; welded weatherproof zippers, carbon neutral Bloom® foams, and expansion features to allow a customized modular carry experience.
